Hi Jim,

I provided Zack with a form containing the results of the MIT test. Please include the results of the MIT including a copy of the chart recording for the test, a schematic showing the wells construction details, present the status of corrective action or changes in the area of review, and a copy of the completion report which I have attached.

Please email and send a hard copy to myself and James Bennett (3WP32), U.S. EPA Region 3, 1650 Arch Street, Philadelphia, Pa 19103. The turnaround is normally a few weeks, although Jim will be leaving this Sunday for a week long training so if you could email the information ASAP he may be able to review this week.

Please let me know if you need any additional information.

Dave

Dave,

I am preparing the Completion Report for the Yanity to submit to the Director. How soon can I have a copy of your well inspection/MIT witness to include? Also, The permit states that we have to have a written notice from the Director that the MIT is acceptable. Do you know how long that typically takes to receive? We are presently set to go to trial early March if the township doesn't settle and would like to be able to demonstrate that we have met all the requirements to commence injection at that time.

Thanks,  
Jim
